MODULE BY MODULE

The whole thing, in order

Modules run in this sequence deliberately — each one assumes the last.

01

ERP and S/4HANA foundations

□ Week 1

TOPICS

- ✓ What an ERP actually does, and the SAP overview
- ✓ SAP R/3 architecture and S/4HANA
- ✓ Technical vs functional modules
- ✓ Phases of an SAP implementation project
- ✓ SAP GUI and Fiori navigation

TOOLS

SAP S/4HANA

SAP Fiori

YOU FINISH WITH

Navigate S/4HANA and map the module landscape

02

SAP MM — Sourcing & Procurement

□ Standalone module on live S/4HANA

TOPICS

- ✓ Enterprise structure — company, plant, storage location, purchasing org
- ✓ Master data — material, business partner, info record, source list, quota
- ✓ Purchasing — PR, PO, RFQ, outline agreements and contracts
- ✓ Release procedures and pricing / calculation schema
- ✓ Inventory management — GR, GI, transfer postings and reservations
- ✓ Physical inventory, special stocks, split valuation and account determination
- ✓ Invoice verification, and integration with FI/CO and SD

TOOLS

SAP MM

SAP S/4HANA

YOU FINISH WITH

Configure and run a full procure-to-pay cycle

03

SAP FICO — Finance & Controlling

□ Standalone module on live S/4HANA

TOPICS

- ✓ Organisation structure — company code, credit control, business area
- ✓ General ledger, fiscal year variant, document splitting, parallel ledgers
- ✓ Controlling area, profit centres and cost centres
- ✓ Accounts payable and receivable, special GL, dunning
- ✓ GST and TDS (withholding tax) configuration
- ✓ House bank, automatic payment programme and BRS
- ✓ Asset accounting, depreciation and financial statement versions

TOOLS

SAP FICO

SAP S/4HANA

YOU FINISH WITH

Configure a company code end to end and run a period close

04

SAP PP/QM — Production & Quality

□ Standalone module on live S/4HANA

TOPICS

- ✓ Enterprise structure and PP master data — material, BOM, work centre, routing
- ✓ Production versions, demand management and MRP run
- ✓ Planned and production orders, capacity planning, shop-floor control
- ✓ Repetitive manufacturing and batch management
- ✓ QM — quality planning, inspection lots, results recording and usage decisions
- ✓ Quality notifications, certificates and vendor quality
- ✓ Integration — PP-MM, PP-SD, QM-MM and QM-PP

TOOLS

SAP PP

SAP QM

SAP S/4HANA

YOU FINISH WITH

Plan and confirm a production order through to quality release

05

SAP SD — Sales & Distribution

□ Standalone module on live S/4HANA

TOPICS

- ✓ Enterprise structure — sales organisation, distribution channel, division, sales area
- ✓ Master data — customer, material, customer-material info and condition records
- ✓ Sales documents — inquiry, quotation, order, contracts and scheduling agreements
- ✓ Item categories, schedule lines, copy control and the pricing procedure
- ✓ Availability check (ATP), shipping, delivery, picking and post goods issue
- ✓ Billing, credit/debit memos, returns, credit management and SD-FI integration

TOOLS

SAP SD

SAP S/4HANA

YOU FINISH WITH

Run a full order-to-cash cycle from sales order through to billing

06

Integration, certification and grooming

□ 1 month

TOPICS

- ✓ Cross-module integration scenarios and the end-to-end manufacturing cycle
- ✓ SAP tables, reports and ASAP methodology
- ✓ SAP certification exam preparation
- ✓ Resume and LinkedIn rebuild, three live mock interviews
- ✓ Salary negotiation for consultants

TOOLS

SAP S/4HANA

LinkedIn

YOU FINISH WITH

An end-to-end business scenario touching MM, FICO, PP/QM and SD

PORTFOLIO**The projects you leave with**

Documented, reviewed and defended out loud — the part of the syllabus that gets you interviews.

Procure-to-pay configuration

Configure a purchasing organisation from empty, then run a requisition through to vendor payment and prove the accounting entries landed correctly.

TOOLS SAP MM, SAP FICO**DATASET** Live S/4HANA training client**Company code and period close**

Build a company code with its chart of accounts, fiscal year variant and document splitting, post a month of transactions, then close the period.

TOOLS SAP FICO**DATASET** Live S/4HANA training client**Make-to-stock production run**

Create the BOM and routing, run MRP, convert the planned order and confirm production through quality inspection.

TOOLS SAP PP, SAP QM**DATASET** Live S/4HANA training client**Cross-module integration scenario**

Run an end-to-end scenario that touches MM inventory, PP production and FICO costing, and reconcile the results across all three.

TOOLS SAP MM, SAP PP, SAP FICO**DATASET** Live S/4HANA training client**WHERE IT LEADS****Roles & indicative salaries**
